EGE KAAN DUMAN

**TURKEY | FOUNDER @ SIMPLIFINE
(Y COMBINATOR 24) | RHODES SCHOLAR**

DKU is an inherently experimental place—connecting an unexpected mix of people, disciplines, and methods. I honestly would not have thought of being a startup founder if it were not for DKU teaching me to innovate & adopt innovative ideas.

**SOUTH KOREA | RESEARCH ASSOCIATE,
BIOENGINEERING @ ODDITY LABS**

The interdisciplinary research opportunities at DKU, especially the bridge it created between biology and physics, guided me toward biomedical engineering and ultimately led me to work as a researcher in the biotech hub of Kendall Square.

**JAPAN | ANALYTICS
AND SALES @
BLOOMBERG**

REIKA SHIMOMURA

My time at DKU and Duke gave me a strong foundation in navigating diverse cultural and professional environments. Working with students and professors from interdisciplinary backgrounds sharpened my communication and project management skills, which directly support my post-graduation work. Thanks to DKU's research experience, I feel confident collaborating in diverse teams and applying analytical skills in my role today.

RANE HILL

**USA | ASSOCIATE RESEARCH
SPECIALIST @ DOW CHEMICAL
COMPANY**

DKU's interdisciplinary curriculum provided me ample opportunities to develop strong technical skills that can be applied in real-world contexts. My undergraduate research experience undoubtedly built confidence in my own abilities while inspiring me to continue working as a researcher in my professional career.

EUN JAE LEE

**USA | INCOMING
EMERGING LEADER
ASSOCIATE @
TRELIX**

SPENCER REEVES

DKU's focus on interdisciplinarity and collaboration gave me the tools to look for a career that was not pinned on one field, and set me up for success in working with people of all different backgrounds.

HUAN CHONG

**MALAYSIA | INSTITUTIONAL
EQUITY SALES @ AMBANK
GROUP**

DKU's flexible, interdisciplinary curriculum prepared me to learn rapidly and be resourceful, while sparking genuine curiosity across many diverse fields. This has helped me excel in Equity Research and Sales where we source, value, and pitch novel investment ideas across a broad range of sectors.

WILLIAM SEITZ

**USA | ASSOCIATE MANAGEMENT
FELLOW @ CITY OF HOPE**

I took my first global health class at DKU, where I discovered the impactful world of healthcare administration. That experience led to my current role as a Healthcare Consultant at City of Hope, where I work to enhance patient and provider experience every day!

**MONGOLIA | GRADUATE
OFFICER MEDIA @ OYU
TOLGOI**

NOMUNSOR SORONZONBOLD

DKU has taught me the art of self-advocacy, the value of embracing diversity with humility, and the importance of adaptability in an ever-changing world. These lessons have become the foundation of my professional journey, allowing me to navigate challenges with resilience and an open mind.

**INDIA | ASSISTANT
MANAGER - CLIMATE
TECH AND
DECARBONISATION @
ETERNAL**

AMEY PRATAP SINGH RATHORE

I believe character is the greatest determinant of success. My four years at DKU and Duke—shaped by the people I met, the ideas I explored, and the passions I pursued—profoundly influenced my character and left a lasting impact on who I am today.
